

Plan of the Day for Monday, 3 June 2013

Submitted by tjlang on Mon, 06/03/2013 - 11:56

Date:

Monday, June 3, 2013 - 11:45

Discussion:

All IFloodS instrumentation is essentially green. NPOL is staffed as of 11 am local, and will remain staffed for the foreseeable future. Little precipitation is expected this afternoon/evening, but there may be some overnight.
